Technical Support	022 761 40 11
Packing List	- Mouse - Logitech Unifying receiver - 2 AA batteries - User documentation

Additional Information

Performance:

15 months of battery life: Stay productive without battery hassles. The On/Off switch helps conserve power, the smart sleep mode feature extends battery life, and an indicator light eliminates surprises.

Laser tracking: You get smooth, responsive, precise cursor control—even on surfaces that typically cause problems for optical mice, such as polished or wood-grain tables.

Convenience and comfort:

Logitech Unifying receiver: The tiny wireless receiver stays in your notebook. There's no need to unplug it when you move around, so your mouse is always connected when and where you feel like using it. Plus, you can easily add a compatible keyboard or number pad, or even another mouse—without the hassle of multiple USB receivers.

Ergonomically designed shape with soft rubber grip: Conforms to your hand to be naturally comfortable, yet is small enough to easily take with you.

Logitech Advanced 2.4 GHz wireless: You get the reliability of a cord plus cordless convenience and

freedom—fast data transmission and virtually no delays or dropouts.
